

Set of User Stories

Initial Project User Stories

1. As a user, I want to share photos of my pet.
2. As a user, I want to see the number of likes on a post and also the list of users that liked it.
3. As a user, I want to comment on other people's posts.
4. As a user, I want to like a post and to be notified when my posts are liked.
5. As a user, I want to customize my pet's profile.
6. As a user, I want to like comments and to delete comments on my posts.
7. As a user, I want to be able to edit my comments on other's posts.
8. As a user, I want to be able to share blog post about my pet.
9. As a user, I want to be able to talk about subjects related to taking care of pets (tips & tricks).
10. As a user, I want to delete my posts.
11. As a user, I want to put tags on my stories so that people can find them easier.
12. As a user, I want to search by tags/title posts.
13. As a user, I want to search other pets accounts.
14. As a user, I want to create multiple pet accounts.
15. As a user, I want to follow other people and see their pet's posts.
16. As an admin, I want to delete inappropriate posts.
17. As an admin, I want to ban users that have suspicious/inappropriate activity.
18. As a visitor, I want to create an account for my pets.

Current Project User Stories

1. As a user, I want to see both the number of likes on a post and the list of users who liked it so that I can assess popularity.
2. As a user, I want to edit my own comments on other people's posts, so that I can maintain ownership and control over my contributions.
3. As a user, I want to view on my feed page only the pets I'm following, so that I can curate and enjoy a customized feed tailored to my interests.
4. As an admin, I want to view, edit and delete all posts on the platform, so that I can efficiently manage content and user interactions.
5. As an admin, I want to search for users, pets, and posts based on tags, so that I can efficiently find content.
6. As an admin, I want to edit and delete blog posts, so that I can efficiently manage content.
7. As an admin, I want to delete user accounts, so that I can efficiently manage content and user interactions.

8. As a user, I want to send instant messages to other pet owners on PetBook so that I can have real-time conversations with them.
9. As a user, I want to view my chat history with other users so that I can reference past conversations.
10. As a user, I want to send pictures in the chat so that I can share visual updates and moments with other pet owners.

Stories in scope of the first development sprint

User story:

As an admin, I want to view, edit and delete all posts on the platform, so that I can efficiently manage content and user interactions.

Acceptance criteria:

Scenario: Admin posts viewing, editing and deleting posts on platform

GIVEN that I am logged into the PetBook admin account

WHEN I access the dashboard

THEN I want to view a list of all the posts on the platform

AND I want to delete any post I choose

AND I want to edit any post I choose

User story:

As a user, I want to personalize my PetBook experience by viewing posts exclusively from pet profiles that I follow on my feed page.

Acceptance criteria:

Scenario: Viewing posts from followed pet profiles on the feed page

Given that I am a logged-in user on PetBook

And I have followed multiple pet profiles

When I navigate to my feed page

Then the posts from pet profiles that I am following are displayed

User story:

As a user, I want to have the ability to edit only my own comments on other people's posts and not be able to edit or delete comments made by other users, so that I can maintain ownership and control over my contributions, ensuring the accuracy and relevance of my comments without impacting the content created by fellow users.

Acceptance criteria:

Scenario: User attempts to edit comments on other people's posts

Given that I am logged into my PetBook account

When I navigate to a post with comments from other users

And I attempt to edit comments made by others

Then I should not have the option to edit or delete comments authored by other users
And I should only be able to edit or delete my own comments
